What Health and Beauty Aid Advertisers Know about the Montgomery, Ala. Television Market

A recent study conducted for WSFA Television by Auburn University was undertaken to develop data relative to the market position, in terms of shelf showings in 127 supermarkets, of various brands of health and beauty aid products in the Central and Southern Alabama television market. Because of the complexities of distribution in this marketing area, a brand audit census such as this enables advertisers to check on their product movement from warehouse to cash register. A second study will be conducted in 1967. If you would like to have a copy of this study, or if you did not receive a copy of the 1966 study, write to Ben Canada, General Sales Manager, WSFA Television, Montgomery, Alabama. We'll be glad to include you on our coveted list of research-minded marketers.

here's one of OUR station reps!

She is Miss Beverly Carlson, and we're proud to have her selling for Georgia and WALB-TV.

She'll tell you, as we will, that only WALB-TV reaches *all* of the rich \$881 million market in the 49 counties surrounding Albany, Georgia. A market named by Forbes as one of the top trade cities . . . served only by a station that recently won "Broadcaster of the Year" and Promotion of the Year awards from the Georgia Association of Broadcasters. As Beverly travels the United States and Canada, her main concern will be selling Georgia tourism. You see, Beverly was our representative and winner in the annual, "Miss See Georgia First" contest. So she really is our representative, in more ways than one! If you want information or avails on *the station* that over 616,000 people look to for news, entertainment, and service . . . then talk to Torbet & McConnell, Inc. . . . or in the South call James S. Ayers Company.

Today's interns, Tomorrow's pros

Where does the exciting, challenging broadcasting industry find today's workers and today's learners who will be tomorrow's professionals?

WGN Continental's answer is the WGN Programs for Professional Broadcast Education. They are—

First, the Pierre Andre Memorial Scholarship Program offering selected university students three months' on-the-job training as part of their regular college curriculum. Students are paid for their work and receive twelve hours' university credit. Since it was initiated in 1963, there have been thirty-three Pierre Andre interns.

Second, the WGN Program offering part-time jobs to full-time high school and university students, who fill a variety of positions ranging from clerks to ushers.

This phase involves an average of twenty students per year.

Third, the WGN Program providing students with summer vacation jobs. An average of twelve students are assisted in this program every year. During the past three years, 129 full-time students attending 25 Midwest educational institutions have participated in the WGN job/training programs.

The WGN Programs provide professional on-the-job training, encouragement, and financial help as a preparation for the student's future and ours.

Eight of these student participants have become full-time WGN employees.

Developing new talent for the industry is another group service of WGN Continental.

Kansas is on the grow! So are companies who locate here. One helps the other. For instance, the Du Pont cellophane plant at Topeka opened its doors in 1958. Since then it has shipped enough cellophane to completely cover the state—and then some. Annual take-home pay for Du Pont's 580 employees here is \$3.75 million. Du Pont spends \$3.5 million for goods and services in Kansas. Just part of the billions-big market for everything in Kansas.

WIBW Radio and TV can wrap up and deliver the giant economy-size portion of this package. Nielsen shows WIBW Radio dominating—day and night—45 counties, representing 2/3 of our 2 million population. As a single station market, WIBW-TV offers top viewer endorsement in strategic central and eastern Kansas. And that's the package. There's nothing transparent about the results. Just ask Avery-Knodel. Or call 913—CRestwood 2-3456, and tell us about *your* package—and how you want it moved...on

DISTINCTIVELY DETROIT

WORLD'S BUSIEST WATERWAY—Freighters of many flags carry more tonnage annually past Detroit's skyline than through the Panama and Suez canals combined. The Detroit River also harbors a half-million sail and power boats, America's largest fleet of pleasure craft.

Just as Detroiters regard this mighty channel of commerce as distinctive of Detroit, so they have regarded The WWJ Stations as distinctively Detroit for 46 years. Why? Because of programming that reflects the city's own interest in local news, sports, entertainment, public affairs, and community service. And, because of WWJ's home-ownership by The Detroit News. When you ask a Detroiters which radio and TV stations are distinctively Detroit, he'll instinctively tell you "WWJ."

WHO ARE THE BILLION-AIRS?

BROADCASTING defines them as the top 50 advertising agencies in terms of television air buying (2.4 billion dollars), and the top agency executives who are responsible for buying this air time.

BROADCASTING is read regularly by 70% of these Billion-airers.

BROADCASTING is preferred better than two to one over the next three vertical publications combined for current news reports.

BROADCASTING has a three to one vote of confidence from the Billion-airers in the authenticity of its reporting.

BROADCASTING is recommended by the Billion-airers three to one over its nearest competitor as the best place to reach them with national advertising.

BROADCASTING has a better than three to one edge in the Billion-airers' minds as the best place to impress them with a station's advertising.

How do we know all this? The Billion-airers told us through an ARB study in May of this year. Want to know more?

A STAR IS BORN

FILMLINE'S MODEL FE-50

A Processor for Ektachrome Film

Processes 16mm Color Emulsions at 50 FPM.

Model FE-50
FROM
\$18,500
F.O.B.
Milford, Conn.

Who knows more about building film processors than Filmline? Nobody. And everything we've learned has gone into our newest Ektachrome processor, the FE-50. It is top quality equipment at a sensible price . . . the result of Filmline's productive know-how. Designed and engineered to fulfill the requirements of both large and small TV stations the FE-50 is the most versatile, fully automated Ektachrome processor ever built.

- **EXCLUSIVE OVERDRIVE SYSTEM** — guarantees against breaking or scratching film. The system is so sensitive that film can be held manually while machine is in operation, without breaking film or causing lower film assemblies to rise.
- **EASY-TO-OPERATE**—automated controls make this an ideal machine for unskilled personnel.
- **VARIABLE SPEED DRIVE**—speed range of 5 FPM to 60 FPM for Ektachrome emulsions.

ADDITIONAL FILMLINE FEATURES:

- Stainless steel air squeegee
- Impingement dry box
- Torque motor for takeup
- Leak-proof pumps for chemical solutions
- Temperature controlled by precision thermistor controllers
- Construction — all metal
- Tanks and component parts are type 316 stainless steel.

Recent FE-50 Installations: WEAT-TV, WCKT-TV, WMAL-TV, NBC, CBS, WTOP-TV, A-1 Labs, Precision Labs, Film Service Lab.

Now available: Filmline FE-30 Ektachrome Processor. Speed — 30 FPM. Complete with Replenishment System . . . \$15,750. F.O.B. Milford, Conn.

We could save one out of two. We don't.

Cancer is not necessarily a killer. Many cancers are curable today. Doctors have the knowledge... the skills... the equipment to save 1 out of 2 cancer patients!

Yet each year, more than 90,000 people die needlessly. Because they do not go to their doctors in time. Early diagnosis and proper treatment could have saved them.

Be a life-saver. Yours. See your doctor regularly!

New tower! New location! New management! New ownership! In short, everything's new about KBMT-TV. Now relocated in Beaumont to serve you better!

KBMT/TELEVISION 12 • 1420 Calder Ave. • Beaumont, Texas

If You Are A Food or Drug Advertiser In the Columbia, S. C. Television Market...

you should be aware of the exact amount of shelf space your product is receiving at the hands of the grocery retailer. In 1966, WIS Television published its 2nd consecutive annual In-Store Brand Audit Product Census of supermarkets in the Carolina Complex. This report includes 64 selected product categories, and shows the number of linear feet, percentage; total area, vertically and horizontally, percentage; number of stores stocking and

percentage, by brand, in each category.

Meaningful research such as this is just one more reason why WIS Television is a respected, influential advertising medium in the 26-county Carolina Complex it serves.

Copies of the WIS Television 1966 Brand Audit are available by writing Mr. Law Epps, General Sales Manager, WIS-TV, Columbia, S. C. 29202.

Our well-rounded programming

...fits nicely in our new round, color studio!

We planned it that way. Ever since WTMJ-TV introduced color television to Milwaukee . . . over thirteen years ago . . . we've tried to give our viewers up-to-date and well-rounded programming. Our plan is to provide viewing pleasure for the whole family, with lots of emphasis on state and local features. To continue bringing the best of color television to Milwaukee we recently built a round color studio . . . and equipped it with the most modern color cameras and transmitting equipment available. This unique, extremely functional structure can easily handle the work of several conventional color studios. It's the only round one in Milwaukee . . . and the first in the nation. Being first, though, is nothing new to us. We were the first station in town. First with network programming. First with color. But most important, our ratings are consistently first!* Try us . . . and see for yourself. (P.S. When you're in the area, drop in and see our new color studio. We'll be happy to show you around.)

TV Allocations, State, City

Note: UHF and VHF TV allocations have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilocycles above or below, respectively, the normal carrier frequencies. The offset indicators are not shown for UHF assignments, which were the subject of a rulemaking adopted June 4, 1965. The designators were to be added in a later order, but had not been published by time the Yearbook went to press. Meanwhile, the appropriate designators are shown on construction permits and licenses issued for UHF stations.

Asterisks (*) indicate channels reserved for noncommercial use.

AT
viking
 WE DO
 MORE
 THAN WE
 HAVE
 TO

{ WE
 HAVE
 TO! }

Viking was always known as "that other company". The old Viking products weren't much to look at, but they worked. We continued engineering, testing and trying, and soon things began to happen.

Viking produced solid seamless, aluminum coaxial cable second to none! Every inch quality controlled with the lowest attenuation factor in the business. And, we make it in half mile lengths!

Last year we introduced the Solid State, Goldline Series of high level, modular, inline amplifiers. Now in full production, they are outperforming every other amplifier in the field.

Systems Construction Company, our turnkey division, is engineering new systems throughout the country.

Other Viking electronic equipment and accessory products are also better. New innovations, engineered

and designed for the technician are setting new standards in the industry.

Viking has come a long way and we appreciate the confidence so many CATV operators and technicians have in our products.

We've had to prove ourselves every step of the way — so when we say, "Viking gives you more", we mean it!

DELAWARE

*DOVER—Delaware Teleservice Co. c/o 1726 M Street, N.W., Suite 302, Washington, D. C. (202) 296-3900. Henry Rau,

If you were in our shoes, you'd be a CATV expert, too.

Our balance sheet never shows how much we spend on shoe leather. But it does reflect the profitability of planning in the field as well as on the board. When there's a CATV problem to be solved, TeleSystems knows its boots are made for walking. That's why we go right to the source with on-spot research, engineering and sales guidance. TeleSystems walks away from pat formulas to build, plan or operate a cable system. We learn local conditions. We investigate local characteristics first-hand. That's why, in CATV, nobody can fill our shoes. But you can hire them. Call us if you're thinking CATV.

Serving CATV Systems in Engineering, Construction, Equipment, Promotion & Management

KNOW-HOW . . . THAT'S TELESYSTEMS!

INTERNATIONAL

The country-by-country information presented below are compiled from various authoritative sources, both official and unofficial, with special assistance from NBC International. Every effort was made to provide information as up-to-date as possible, but information derived from official government reports, in particular, sometimes tends to be delayed. For the most part, however, the information below is based on reports of the situation as it existed in the first half of 1966.

INTERNATIONAL

Aden

One TV station, government-controlled and commercial, serves 12,000 to 14,000 TV sets. South Arabian Television Service, Box 1264, Aden.

Argentina

About 16 TV stations are operating or planned. Government, which operates one of four stations in Buenos Aires, licenses channels on one-to-a-customer basis and does not permit simultaneous networking, although stations outside Buenos Aires may buy and present recordings of programs after their Buenos Aires presentation.

Australia

Broadcasting is under dual system, with government operating noncommercial stations and other entities commercial. Commercial radio stations reported at about 110, noncommercial radio at 69. In TV, 39 were operating commercially and four others were expected to begin commercial operations before end of 1966, while government (Australian Broadcasting Commission) had 34 noncommercial stations in operation and planned to add five more in 1966-67. One-year receiver licenses, required by government, as of July 1966 numbered 648,221 for radio, 234,674 for TV and 1,855,281 for radio-TV combinations, in addition to 1,456 radio and 154,993 TV short-term licenses. Governing body is Australian Broadcasting Control Board (373 Elizabeth St., Melbourne, C.I. Victoria), headed by Miles Wright, chairman.

TV service includes one government, non-commercial station and one to three commercial stations in 31 areas. Commercial stations follow general U. S. format, selling up to six minutes each hour plus station-break time. Spot messages range from I.D. to one-minute; and sponsored programs range from five-minute news to 15, 30 and 60 minute shows. Co-sponsorship permitted in series or as half-sponsorship with spots available.
